Independent Auditor's Report

To the Board of Governors of Canadore College of Applied Arts and Technology

We have audited the accompanying financial statements of Canadore College of Applied Arts and Technology, which comprise the statement of financial position as at March 31, 2017, and the statements of changes in net assets, operations and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Canadore College of Applied Arts and Technology as at March 31, 2017 and the results of its operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

CANADORE COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Notes to Financial Statements

For the year ended March 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES

Description of Organization

Canadore College of Applied Arts and Technology ("Canadore" or the "College"), established in 1967, is an Ontario College of applied arts and technology duly established pursuant to Ontario Regulation 34/03 made under the Ontario Colleges of Applied Arts and Technology Act, 2002. The College is an agency of the Crown and provides postsecondary education to full-time and part-time students.

The College is a not-for-profit organization and, as such, is exempt from income taxes under the Income Tax Act (Canada).

Basis of presentation

The financial statements of the College have been prepared in accordance with Canadian public sector accounting standards for government not-for-profit organizations, including the 4200 series of standards as issued by the Public Sector Accounting Board ("PSAB for Government NPOs").

Revenue recognition

The College follows the deferral method of accounting for contributions, which include donations and government grants. Tuition fees and contract training revenues are recognized as income to the extent that the related courses and services are provided within the fiscal year of the College.

Ancillary revenues including parking, residence and other sundry revenues are recognized when products are delivered or services are provided to the student or client, the sales price is fixed and determinable, and collection is reasonably assured.

Unrestricted contributions are recognized as revenue when received or receivable.

Externally restricted contributions and restricted investment income are recognized as revenue in the year in which the related expenses are incurred.

Restricted contributions for the purchase of capital assets are deferred and amortized to revenue at a rate corresponding with the amortization rate for the related capital assets.

Endowment contributions are recognized as direct increases in endowed net assets.

Restricted investment income is recognized as revenue in the year in which the related expenses are incurred. Restricted investment income that must be maintained as an endowment is credited to net assets. Unrestricted investment income is recognized as revenue when earned.

Capital Assets

Purchased capital assets are recorded at cost less accumulated amortization. Contributed capital assets are recorded at fair value at the date of contribution. Repairs and maintenance costs are charged to expenses. Betterments that extend the estimated useful life of an asset are capitalized. When a capital asset no longer contributes to the College's ability to provide services or the value of the future economic benefits associated with the capital asset is less than its net book value, the carrying value of the capital asset is reduced to reflect the decline in the asset's value.

Construction in progress is not recorded as a capital asset, or amortized until construction is put into service.

Notes to Financial Statements

For the year ended March 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital Assets
(continued) Capital assets are capitalized on acquisition and amortized on a straight-line basis over their useful lives, which has been estimated to be as follows:

Buildings and building improvements	40 years
Furniture and equipment	5 years
Computer equipment and computers under capital lease	3-5 years
Equipment	5-10 years

Retirement and post-employment benefits and compensated absences The College provides defined retirement and post-employment benefits and compensated absences to certain employee groups. These benefits include pension, health and dental, vested sick leave and non-vested sick leave. The College has adopted the following policies with respect to accounting for these employee benefits:

- (i) The costs of post-employment future benefits are actuarially determined using management's best estimates of health care costs, disability recovery rates and discount rates. Adjustments to these costs arising from changes in estimates and experience gains and losses are amortized to income over the estimated average remaining service life of the employee groups on a straight-line basis.
- (ii) The costs of the multi-employer defined pension and the employer's contributions due to the plan in the period.
- (iii) The cost of vesting and non-vesting sick leave benefits are actuarially determined using management's best estimate of salary escalation, employees' use of entitlement and discount rates. Adjustments to these costs arising from changes in actuarial assumption and/or experience are recognized over the estimated average remaining service life of the employees.
- (iv) The discount rate used in the determination of the above-mentioned liabilities is equal to the College's internal rate of borrowing.

Vacation Pay The College recognizes vacation pay as an expense on an accrual basis.

Financial Instruments The College classifies its financial instruments as either fair value or amortized cost. The College's accounting policy for each category is as follows:

Fair Value

The College has designated its bond portfolio that would otherwise be classified into the amortized cost category as fair value as the College manages and reports performance on a fair value basis.

The bond portfolio is initially recognized at cost and subsequently carried at fair value. Changes in fair value on restricted assets are recognized as a liability until the criterion attached to the restrictions has been met.

Transaction costs related to financial instruments in the fair value category are expensed as incurred.

CANADORE COLLEGE OF APPLIED ARTS AND TECHNOLOGY
Notes to Financial Statements
For the year ended March 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial Instruments
(continued)

Amortized cost

This category includes accounts receivable, other receivables, accounts payable and accrued liabilities, operating loan, long-term debt and obligations under capital lease. They are initially recognized at cost and subsequently carried at amortized cost using the effective interest method, less any impairment losses on financial assets.

Transaction costs related to financial instruments in the amortized cost category are added to the carrying value of the instrument.

Writedowns on financial assets in the amortized cost category are recognized when the amount of a loss is known with sufficient precision, and there is no realistic prospect of recovery. Financial assets are then written down to net recoverable value with the writedown being recognized in the statement of operations.

Management Estimates

The preparation of financial statements in conformity with PSAB for Government NPOs requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the period. Actual results could differ from these results. Areas of key estimation include determination of fair value for the allowance for doubtful accounts, and actuarial estimation of post-employment benefits and compensated absences liabilities.

2. FINANCIAL INSTRUMENT CLASSIFICATION

The following table provides costs and fair value information for financial instruments by category. The maximum exposure to credit risk would be the carrying value as shown below:

	2017		
	Fair Value	Amortized Cost	Total

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- ❖ Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities using the last bid price;
- ❖ Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- ❖ Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

10. POST-EMPLOYMENT BENEFITS AND COMPENSATED ABSENCES LIABILITY (continued)

The total expense for post-employment benefits and compensated absences is included in salaries and benefits on the Statement of Operations. The total amount paid during the year for post-employment benefits and compensated absences was \$162,412 (2016 - \$132,000).

The above amounts exclude pension contributions to the College of Applied Arts and Technology pension plan, a multi-employer plan, described below.

Retirement Benefits

CAAT Pension Plan

Substantially all employees of the College are participants of the Colleges of Applied Arts and Technology Pension Plan (the "Plan"), which is a multi-employer jointly-sponsored defined benefit plan for eligible employees of public colleges and related employers in Ontario. As this is a multi-employer plan it is accounted for as if the plan were a defined contribution plan and contributions the College makes to the Plan, equal to those of the employees, are expensed in the period they become due. Contribution rates are set by the Plan's governors to ensure long-term viability of the Plan.

Any pension surplus or deficit is a joint responsibility of the members and employers and may affect future contribution rates. Any unfunded liability is to be paid directly by the Ministry of Training, Colleges and Universities. The College made contributions to the Plan and its associated retirement compensation arrangements of \$3,041,056 in 2017 (2016 - \$2,954,093), which has been included in salaries and benefits on the Statement of Operations. The most recent actuarial valuation filed with the pension regulators as at January 1, 2017 indicated an actuarial surplus of \$1.6 billion.

Post-Employment Benefits

The College extends post-employment life insurance, health and dental benefits to certain employee groups subsequent to their retirement. The College recognizes these benefits as they are earned during the employees' tenure of service. The related benefit liability was determined by an actuarial valuation study commissioned by the College Employer Council.

The major actuarial assumptions employed for the valuation are as follows:

a) Discount rate

The present value as at March 31, 2017 of the future benefits was determined using a discount rate of 2.0% (2016 - 1.7%).

b) Drug costs

Drug costs were assumed to increase at 8.25% per annum in 2017 (2016 - 8.5%), grading down to 4.0% per annum in 2034.

c) Hospital and other medical

Hospital and other medical costs were assumed to increase at 4.0% per annum (2016 - 4.0%).

Medical premium increases were assumed to increase at 6.98% per annum in 2017 (2016 - 7.15%), grading down to 4.0% per annum in 2034.

10. POST-EMPLOYMENT BENEFITS AND COMPENSATED ABSENCES LIABILITY (continued)

d) Dental costs

Dental costs were assumed to increase at 4.0% per annum in 2017 (2016 – 4.0%).

Compensated Absences

Vested Sick Leave

The College has provided for vested sick leave benefits during the year. Eligible employees, after 10 years of service are entitled to receive 50% of their accumulated sick leave credits on termination or retirement to a maximum of six months' salary. The program to accumulate sick leave credits ceased for employees hired after March 31, 1991. The related benefit liability was determined by an actuarial valuation study commissioned by the College Employer Council.

Non-Vested Sick Leave

The College allocates to certain employees groups a specified number of days each year to use as paid absences in the event of illness or injury. These days do not vest and are available immediately. Employees are permitted to accumulate their unused allocation each year, up to the allowable maximum provide in their employment agreements. Accumulated days may be used in future years to the extent that the employees' illness or injury exceeds the current year's allocation of sick days. Sick days are paid out at the salary in effect at the time of usage. The related benefit liability was determined by an actuarial valuation study commissioned by the College Employer Council.

The assumptions used in the valuation of vesting and non-vesting sick leave are the College's best estimates of expected rates of:

	2017	2016
Wage and salary escalation		
Academic full-time and partial load	1.8% in 2016 and 1.5% per annum thereafter	1.2% in 2014, 1.5% in 2015, 1.8% in 2016 and 1.5% per annum thereafter
Support staff full-time	0.5% per annum in 2016 and 2017, 1.5% per annum thereafter	1.0% per annum in 2014 and 2015, 0.5% per annum in 2016 and 2017, 1.5% per annum thereafter

The probability that the employee will use more sick days than the annual accrual and the excess number of sick days used are within ranges of 0% to 23.7% (2016 - 0% to 24.0%) and 0 to 48.0 days (2016 – 0 to 44.3 days) respectively for age groups ranging from 20 and under to 65 and over in bands of 5 years.

13. EXTERNALLY RESTRICTED NET ASSETS

Externally restricted net assets include restricted donations received by the College where the endowment principal is required to be maintained intact. The investment income generated from these endowments must be used in accordance with the various purposes established by the donors. The College ensures, as part of its fiduciary responsibilities, that all funds received with a restricted purpose are expended for the purpose in which they were provided.

Investment income on externally restricted endowments that was disbursed during the year has been recorded in the statement of operations since this income is available for disbursement as scholarships and bursaries and the donors' conditions have been met. The unspent portion of investment income is recorded in deferred contributions. Investment income on endowed assets recognized and deferred was \$136,235 and \$91,796 respectively (2016 - \$170,610 and \$98,574).

15. CONTINGENCIES

In the normal course of operations the College is in the process of dealing with a number of grievances that may go to arbitration. As of the date of financial statement preparation the likelihood and impact of these grievances on the College's financial statements is unknown. Should any costs be incurred as a result of the arbitration process, such costs will be expensed in the year of settlement.

In the normal course of operations the College is involved in certain legal matters and litigations, the outcome of which is not presently determinable. The loss, if any, from these contingencies will be accounted for in the periods in which the matters are resolved.

16. CANADORE STUDENTS' COUNCIL

Included in assets and liabilities at year end was \$188,480 (2016 - \$462,938) in student fees collected and not disbursed during the year. During the year the College paid \$1,353,395 (2016 - \$844,278) in expenses on behalf of the College's students. These expenses and the associated fees collected have not been recognized in the College's statement of operations.

17. THE CANADORE COLLEGE FOUNDATION

The Canadore College Foundation (the "Foundation") was created for the purpose of raising funds for capital and other purposes to assist the College in continuing to provide outstanding applied education. Funds received from the Foundation during the year totaled \$100,000 (2016 - \$Nil). As at March 31, 2017 the College has an outstanding receivable of \$176,405 (2016 - \$60,000) from the Foundation. The College provides support when required, office space, basis infrastructure and associated services, computer and other equipment, services of certain College departments and accounting and financial systems and processes. The Foundation is not controlled and therefore is not consolidated in these financial statements.

18. ECONOMIC DEPENDENCE

The College receives approximately 42% (2016 – 51%) of its revenues from the Ministry of Training, Colleges and Universities.

19. FINANCIAL INSTRUMENT RISK MANAGEMENT

Credit Risk

Credit risk is the risk of financial loss to the College if a debtor fails to make payments of interest and principal when due. The College is exposed to this risk related to its cash, debt holdings in its investment portfolio, other receivables and accounts receivable. The College holds its cash accounts with federally regulated chartered banks who are insured by the Canadian Deposit Insurance Corporation. In the event of default, the College's cash accounts are insured up to \$300,000 (2016 - \$300,000).

The College's investment policy operates within the constraints of the investment guidelines issued by the Ministry of Training, Colleges and Universities and puts limits on the bond portfolio including portfolio composition limits, issuer type limits, bond quality limits, aggregate issuer limits, corporate sector limits and general guidelines for geographic exposure. All fixed income portfolios are measured for performance on a quarterly basis and monitored by management on a monthly basis. The guidelines permit the College's funds to be invested in bonds issued by the Government of Canada, a Canadian province or a Canadian municipality having a rating of A or better, or corporate investments having a rating of A (R-1) or better. The maximum exposure to investment credit risk is outlined in note 2.

Accounts receivable are ultimately due from students. Credit risk is mitigated by financial approval processes before a student is enrolled and the highly diversified nature of the student population. The College measures its exposure to credit risk based on how long the amounts have been outstanding. An impairment allowance is set up based on the College's historical experience regarding collections. The amounts outstanding at year end were as follows:

	2017				
	Total	1-30 days	31-60 days	61-90 days	91-120 days
Government receivables	\$ 6,845,623	\$6,845,623	\$ -	\$ -	\$ -

19. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

Student receivables not impaired are considered collectible based on the College's assessment and past experience regarding collections rates.

There have been no significant changes from the previous year in the exposure risk or policies, procedures and methods used to measure the risk.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate as a result of market factors. Market factors include three types of risk: currency risk, interest rate risk and equity risk.

The College operates within the constraints of the investment guidelines issued by the Ministry of Training, Colleges and Universities. The policy's application is monitored by management, the investment managers and the Board of Governors. Diversification techniques are utilized to minimize risk.

There have been no significant changes from the prior year in the exposure to risk or policies, procedures and methods used to measure risk.

Currency Risk

Currency risk relates to the College operating in different currencies and converting non-Canadian earnings at different points in time at different foreign levels when adverse changes in foreign currency rates occur. The College does not have any material transaction or financial instruments denominated in foreign currencies.

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

Interest rate risk

Interest rate risk is the potential for financial loss caused by fluctuations in fair value of future cash flows of financial instruments because of changes in market interest rates. The College is exposed to this risk through its interest bearing investments, bank loans and long-term debt.

The College's guaranteed investment and bond portfolio has interest rates ranging from 1.75% to 10.5% (2016 – 1.75% to 10.5%) with maturities ranging from May 24, 2017 to June 2, 2048 (2016 – April 26, 2016 to April 23, 2046).

At March 31, 2017, a 1% fluctuation in interest rates, with all other variables held constant, would have an estimated impact on the fair value of guaranteed investment certificates and bonds of \$43,877 (2016 - \$40,734). A 1% fluctuation in interest rates would have an estimated impact on interest expense related to the College's bank loans of \$91,212 (2016 - \$106,662) and no impact on interest income related to the College's other long-term receivable.

There have been no significant changes from the previous year in the exposure or risk or policies, procedures and methods used to measure risk.

For the year ended March 31, 2017

19. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

Equity Risk

Equity risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The College is exposed to this risk through its equity holdings within its investment portfolio. At March 31, 2017, a 5% movement in the stock markets with all other variables held constant would have an estimated effect on the fair value of the College's investments of \$184,928 (2016 - \$171,996).

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure risk.

Liquidity Risk

Liquidity risk is the risk that the College will not be able to meet all cash outflow obligations as they come due. The College mitigates this risk by monitoring cash activities and expected outflows through extensive budgeting and maintaining investments that may be converted to cash in the near-term if unexpected cash outflows arise. The following table sets out the contractual maturities (representing undiscounted contractual cash-flows of financial liabilities):

	2017
