

Graphic Design

Dual Credits: two high school credits and two college courses

Photography-Fundamentals – AFK4T (College Course: GRD124)

Students will learn all the camera functions while developing their creative, photographic philosophies in this hands-on course. Digital darkroom skills will be taught from a photographers' perspective, keeping emphasis on the importance of planning for a good shot. The history of photography will be discussed throughout the course as it pertains to the functions in camera and through digital darkroom. An introduction to traditional darkroom will also be explored for the purpose of demonstrating progress and its correlation to digital photography today.

Computer Imagery – TGB4T (College Course: GRD114)

This course will explore the endless and exciting possibilities of a popular image-editing program. Introductory exercises will highlight file size relationships, image editing, selections, palettes, layers, channels, type and special effects. Through practical assignments, students will develop and learn about rasterized imagery, photo manipulation, and special effects to be used for print and digital design. The skills learned in this course will give students original creative options for all other courses using images, type, print and digital layouts and special effects.

Note:

- Tuition, materials and transportation fees will be covered through the Dual Credit program.
- All students are expected to attend an orientation session prior to taking part in any Dual Credit program.
- Students will be contacted by the SCWI Program Assistant, at least one week prior to the start of the program, to be provided with a date, time and location for each orientation session.
- Delivery: Spring 2024.
- Location: College Drive Campus.
