

# Pop-In Drop-In: Registering for Classes

---

## **Do I need to register for classes after accepting my offer?**

Yes. Accepting your offer indicates your intent to attend, but registering secures your spot in the program.

## **When does registration begin?**

Registration opens **Tuesday, August 12th**. All programs will be open by Thursday, August 14th. The full schedule is available on the college's registration webpage. For additional assistance please refer to the [Web Registration Tutorial](#) document or watch the [Web Registration Video Tutorial](#)

## **How do I register for classes?**

Registration is done online through [self-service](#). Students log in with their student ID and birthdate (DDMMYY format), update personal info, accept financial terms, choose a payment method, select course blocks and electives, review the schedule, and submit.

## **What if I have issues during registration?**

Students can call the admissions office at (705) 474-7600 ext. 5123 or by email at [admissions@canadorecollege.ca](mailto:admissions@canadorecollege.ca). They can also join virtual [Canadore College Fall 2025 Drop-In Registration Support](#) sessions for help. All contact details and links are available on the registration webpage.

## **What is my student number and where can I find it?**

Your student number is your personal ID at the college and is found on your offer letter (both email and mailed versions).

## **Do I need to pay tuition in full before registering?**

Yes, unless you're an OSAP or sponsored student. OSAP students must have completed and uploaded all required documentation. Sponsored students must submit their sponsorship letter in advance.

## **How do I submit a payment?**

Payments can be made online via the [Student Payment Center](#). Instructions are also on the back of your invoice.

## **How and when will I get my class schedule? Can I choose my own schedule?**

Once registered, your schedule appears in self-service. Core courses are grouped in blocks. If multiple blocks are available, you may choose one. Electives are usually selectable.

## **What should I do if the block I need is full?**

Contact the admissions office or join a virtual support session for assistance.

## **Will all my classes be in person or online?**

Most programs are in person unless enrolled in an online-only program. The majority of classes will be in person. However, general education courses are typically online.

**How can I tell if a class is in person or online?**

Check your schedule. If a room number is listed, it's in person. If not, it's likely online, and your instructor will provide instructions with how to access online content.

**Can I change my program before classes start?**

Yes, but it's not recommended. You must withdraw your acceptance and reapply, which includes a \$150 fee. Admission to the new program depends on availability.

**Can I change my schedule after registration?**

No, schedule changes are not allowed after registration.

**When is the last day to add or drop a class?**

It depends on your program. Most programs allow changes until September 15th. Some programs, like dental hygiene, nursing or aviation, have a deadline of September 2nd.

**Do I select a timetable and electives separately or together?**

Course blocks and electives are selected at the same time during registration.

**How do I know what time registration opens for my program?**

The registration website lists each program's opening date and time, along with campus details.
