1 HIGHLIGHTS

- Each year, more than 500,000 students and clients are served by Ontario's colleges of applied arts and technology (CAATs). Of this group, more than 240,000 are full-time post-secondary students.
- There were 196,798 distinct applicants for the 2017-18 academic year.
- Fifty-eight per cent of new fall 2018 entrants to Ontario post-secondary institutions enrolled in a college.
- More than 25 per cent of college applicants reported household incomes of less than \$30,000, and almost 50 per cent had incomes of less than \$60,000.
- Total funded full-time equivalent (FTE) post-secondary enrolment in the colleges in 2017-18 was 216,488 (including funded full-time, part-time and tuition-short programs).
- More than 75,000 international students enrolled in Ontario colleges in fall 2018.
- Colleges delivered 84 per cent of apprenticeship in-school training in 2017-18.
- Colleges reported more than 99,000 post-secondary graduates in 2016-17.
- Eighty-six per cent of 2016-17 graduates in the labour force were working six months after graduation.

2 COLLEGE ACTIVITY

Figure 1. Relative distribution of learners/clients served by Ontario's colleges

Sources: Ontario Ministry of Training, Colleges and Universities, OCAS, College Sector Committee for Adult Upgrading.

- Serving more than 500,000 people, learners at Ontario colleges comprise a diverse population. In addition to traditional post-secondary education (PSE), colleges offer many other types of programs and courses, including apprenticeship training, continuing education courses, collaborative programs with universities, and literacy and basic skills programs.

3 NUMBERS OF ONTARIO COLLEGE APPLICANTS, STUDENTS AND GRADUATES

3.1 Applicants

Table 1. Per cent of CAAT applicants* direct from secondary school vs. non-direct by year

Year	Direct		Non-direct		Total
	Number	% of total	Number	% of total	
2009-10	70,970	36.5%	123,597	63.5%	194,567
2010-11	71,480	36.6%	123,868	63.4%	195,348
2011-12	64,124	34.7%	120,916	65.3%	185,040
2012-13	67,714	34.5%	128,656	65.5%	196,370
2013-14	69,256	34.6%	130,742	65.4%	199,998
2014-15	68,384	34.7%	128,639	65.3%	197,023
2015-16	62,488	32.1%	132,440	67.9%	194,928
2016-17	54,450	28.5%	136,909	71.5%	191,359
2017-18**	52,971	26.9%	143,827	73.1%	196,798
2018-19**	49,903	25.0%	149,409	75.0%	199,306

*Distinct applicants across fall/winter/spring.

** Preliminary numbers (the application cycle is not complete). To date, May 2019.

Direct: Applicants applying directly from high school (for OCAS applicant data, this category includes school-board-run adult day schools).

Non-direct: Applicants not applying directly after high school.

Source: OCAS.

Figure 2. New fall 2018 Ontario post-secondary entrants by sector

Note: University and college data include first-year full-time domestic head counts for fall 2017. Significant numbers of students also enrol in colleges during the winter and spring intake periods, not shown in the above figure. Full-time CAAT apprentices are included with the college data. Sources: Ontario Ministry of Training, Colleges and Universities, OCAS.

- A majority of new fall 2018 entrants to post-secondary education in Ontario enrolled in a college.

3.2 Students

Post-secondary-funded enrolment

Figure 3. Funded college enrolments as FTEs* from 2008-09 to 2017-18

*FTE = full-time equivalent; FT - full time; PT = part time; TS = tuition short (programs typically less than 52 weeks in duration).

Note that funded students do not comprise the total college population.

Source: Ontario Ministry of Training, Colleges and Universities.

Table 2. Total funded FTE enrolment by college, 2017-18

College	2017-18 FTE
Algonquin	19229
Boréal	1373
Cambrian	3419
Canadore	2651
Centennial	11026

Seneca	19961
Sheridan	15998
St. Clair	7717
St. Lawrence	5250
Total	216488

Note that funded students do not comprise the total college population.

Source: Ontario Ministry of Training, Colleges and Universities.

Collaborative nursing students

Figure 4. Ontario college-university collaborative nursing programs: total full-time fall enrolment* by year

*Includes full-time students reported by colleges or their university partners.

Source: Ontario Ministry of Training, Colleges and Universities.

- Collaborative nursing programs are offered through college-university partnerships. Although individual models vary, nursing students typically complete courses at both the college and university campuses. Students in these nursing programs are counted separately from the post-secondary-funded enrolment and reported either through the college or the university partner.

International students

Figure 5. International student enrolment by program category

Source: OCAS, November enrolment count.

- More than 75,000 international students enrolled at colleges in 2018-19.

Second Career students

Figure 6. Relative distribution of Second Career clients by provincial region

Source: Ontario Ministry of Training, Colleges and Universities.

- The Ontario government's Second Career program has provided funding for adult retraining since 2008. Second Career clients can pursue their training at public or private colleges in Ontario. As shown in figure 6, the relative distribution of these clients across provincial regions generally reflects local population densities.
- The average age of Second Career clients is 41 years, with an almost equal distribution of males and females. Clients pursue a range of career options, with the top five most popular occupations currently being truck driver, heavy equipment operator, social and community service worker, medical administrative assistant and accounting clerk.

Figure 7. Percentage of Second Career clients training at public colleges

Source: Ontario Ministry of Training, Colleges and Universities.

- During the 2018-19 fiscal year, 34 per cent of Second Career clients received training at a public college.

3.3 Graduates

Table 3. Number of graduates by college and semester of graduation*

College	Summer 2015	Fall 2015	Winter 2016	Total

*Percentage of students whose parents never attended a post-secondary institution.

**Estimate based on a survey of applicants who later registered at a college. Excludes respondents who selected N/A or “prefer not to answer.”

Sources: OCAS, 2017-18 student satisfaction survey (Ontario Ministry of Training, Colleges and Universities), 2017 applicant survey (Academica Group Inc.).

4.1 Level of education

Figure 9. Pathways to college

Direct: Entered college directly from secondary school.

Delayed: No prior PSE experience, but did not enter directly after secondary school.

Incomplete PSE: Previous PSE experience, without a completed credential.

Complete PSE: Previous attainment of a PSE credential.

Source: 2017-18 student satisfaction survey (Ontario Ministry of Training, Colleges and Universities).

- In 2017-18, 31 per cent of college students came directly from high school and an additional 20 per cent were delayed entrants (i.e., no prior PSE experience but did not come directly from high school). Forty-seven per cent of students had some previous post-secondary education, 31 per cent of whom previously completed a college and/or university credential (18 per cent university graduates).

4.2 Household income

Figure 10. Household income of college applicants

*Excludes respondents who selected "prefer not to answer." An additional 20 per cent report not knowing their household income.

Source: 2017 applicant survey (Academica Group Inc.).

- More than 25 per cent of college applicants reported household incomes of less than \$30,000 and almost 50 per cent had incomes of less than \$60,000.

4.3 Population of applicant communities

Figure 11. Approximate population of applicant community

Sources: 2017 applicant survey (Academica Group Inc.), 2016 census.

- Thirty-five per cent of applicants come from communities with fewer than 100,000 people. For comparison, 32 per cent of the Ontario population lives in communities of this size, based on the latest available census data.

4.4 Aboriginal status

Figure 12. Proportion of college students of Aboriginal identity

Sources: OCAS, 2016 census.

- Approximately four per cent of Ontario college students self-identify as Aboriginal, a high proportion of whom study at a northern college.

4.5 Students with disabilities

Figure 13. Per cent of students self-reporting the use of special needs/disability services

Source: Student satisfaction surveys (Ontario Ministry of Training, Colleges and Universities).

- In 2017-18, 17 per cent of Ontario college students reported having a physical, intellectual, mental health or learning disability and over 15 per cent (figure 13) indicated using their college's special needs/disability services office. Of those using these services, approximately half indicated high usage.

4.6 Main goals

Figure 14. Major reasons for applying to college as reported by applicants

Source: 2017 applicant survey (Academica Group Inc.)

Figure 15. 'Main goal' of college students in enrolling in their programs by credential

Source: 2017-18 student satisfaction survey (Ontario Ministry of Training, Colleges and Universities).

5 APPRENTICES

Figure 16. Total new CAAT apprenticeship starts by year

Source: Ontario Ministry of Training, Colleges and Universities.

- In 2017-18, 84 per cent of new apprenticeship seats in Ontario were allocated to the colleges for a total of 30,105.
- Previous changes in government policy have led to a decrease in the number of apprenticeship starts, particularly in the service sector.

Figure 17. New CAAT apprenticeship starts* by sector and year

*Includes full- and part-time apprentices. Excludes starts in exam preparation.
 Source: Ontario Ministry of Training, Colleges and Universities.

- Reflecting the needs of Ontario’s economy, the distribution of new apprenticeship starts varies by sector.

Figure 18. Distribution of Ontario registered apprentices by gender

*Includes full- and part-time apprentices. Excludes starts in exam preparation.
 Source: Ontario Ministry of Training, Colleges and Universities.

- Detailed information on the gender of registered apprentices is available from Statistics Canada. In Ontario, females comprise 17 per cent of total registered apprentices and are under-represented in many trades.

6 CONTINUING EDUCATION STUDENTS

Table 6. Background characteristics of college continuing education students

Figure 21. 2015-16 graduates by credential

Note: The degree category does not include collaborative nursing degree programs.
Source: 2016-17 Employment Profile (Ontario Ministry of Training, Colleges and Universities).

- There were 99,020 graduates in 2015-16, a 1.4 per cent increase over the previous year.

Figure 22. Further education of college graduates* (within six months of graduation)

Note: Includes those studying full or part time.

Source: Graduate satisfaction surveys (Ontario Ministry of Training, Colleges and Universities).

- Twenty-seven per cent of graduates in 2016-17 chose to further their education immediately (i.e., within six months) after graduation. The percentages vary slightly from year to year but returning to their college of graduation or enrolling in an Ontario university continue to be the most popular choices for graduates who pursue further education.

Figure 23. Further education credential choices of college graduates (within six months of graduating)

Source: 2016-17 graduate satisfaction survey (Ontario Ministry of Training, Colleges and Universities).

- Of the 27 per cent of college graduates who continued their education immediately after graduation, 59 per cent enrolled in a college certificate or diploma program. Undergraduate degrees (college or university) were chosen by 23 per cent of college graduates, and a further 13 per cent pursued a graduate program.

8 PERCEPTIONS

8.1 Students

As part of the annual student satisfaction survey, college students are asked to rate their satisfaction with numerous aspects of their college experience. Student satisfaction with academic components specific to teaching and learning experiences tend to be rated very highly.

Table 8: Examples of student satisfaction survey items on teaching and learning

Student satisfaction survey item	Per cent very satisfied/satisfied
• This program provides you with skills and abilities specific to your chosen career	85%
• This program develops your ability to work with others	82%
• Teachers are up-to-date/current in their fields	79%
• This program provides skills and abilities helpful for future life outside work	76%

The quality of other key areas of facilities/resources and services that impact students' experiences, however, have not been rated as highly. Examples of such responses include:

- Seventy-five per cent were very satisfied/satisfied with the overall quality of their colleges' facilities/resources.
- Sixty-five per cent were very satisfied/satisfied with the overall quality of the services in the colleges.

8.2 Graduates

In addition to the topline results from key performance indicators that are independently gathered each year for colleges and the provincial government, many other details regarding graduate experiences are available from the results. Some of the highlights from the 2018 survey include:

- Ninety-four per cent of graduates would recommend their colleges to someone else and 89 per cent of graduates would recommend their specific programs.
- Eighty-five per cent of graduates were very satisfied/satisfied with the course content and with the overall quality of instruction.
- Eighty-six per cent of college graduates were very satisfied/satisfied that the course material in their programs was up to date.
- Eighty-six per cent of graduates were very satisfied/satisfied that the equipment was up to date.

Table 9. Graduate and employer beliefs about the importance of the following skills and abilities for the graduate’s current position and their satisfaction with graduate’s educational preparation

	Importance (extremely important/important)		Satisfaction (very satisfied/satisfied)	
	Graduate-rated	Employer-rated	Graduate-rated	Employer-rated
A. Specific job-related knowledge	90%	92%	82%	97%
B. Specific job-related skills	90%	93%	82%	88%
C. Oral communication	96%	98%	88%	93%
D. Written communications	84%	86%	86%	90%
E. Comprehension	94%	98%	88%	94%
F. Math skills	59%	62%	71%	82%
G. Computer skills	74%	77%	79%	91%
H. Critical thinking	91%	94%	88%	89%
I. Problem solving	95%	96%	89%	89%
J. Research and analysis	64%	60%	78%	77%
K. Teamwork	95%	99%	89%	96%
L. Organization and planning	93%	94%	87%	90%
M. Time management	96%	97%	87%	89%
N. Quality of work	97%	100%	88%	94%
O. Productivity	95%	98%	87%	91%
P. Creative and innovative	73%	76%	77%	81%
Q. Adaptable	94%	97%	86%	94%
R. Responsible	98%	99%	90%	95%

Source: 2017-18 graduate satisfaction survey (Ontario Ministry of Training, Colleges and Universities).

- Graduates and employers display very high agreement in their ratings of the relative importance and satisfaction of each of these components to the work the graduates are doing.

9 KEY PERFORMANCE INDICATORS

Figure 24. Satisfaction scores by year*

*Reporting year

Sources: Student, graduate and employer satisfaction surveys (Ontario Ministry of Training, Colleges and Universities).

- Ontario college data include five key performance indicators (KPIs): student satisfaction rate, graduate satisfaction rate, employer satisfaction rate, graduate employment rate and graduation rate.
- The student satisfaction rate is calculated from the average score on four key questions on the survey: The students' program is giving them the knowledge and skills that will be useful in their future career; overall quality of the learning experience; overall quality of services; and the overall quality of facilities and resources.
- Graduation rates are reported by the colleges, while surveys are used to collect all other information. Independent research firms collect the survey data on behalf of the colleges and the ministry.

Table 10. Key performance indicators 2007-08 to 2016-17*

	2008 -09	2009 -10	2010 -11	2011 -12	2012 -13	2013 -14	2014 -15	2015 -16	2016 -17	2017 -18

10 NOTES ON DATA SOURCES

Data shown in this chapter were derived from the following sources:

- Applicants: Ontario College Application Service (OCAS) application data and responses to survey questions from the annual college applicant survey (Academica Group Inc.).
- Students: Demographic and opinion data were obtained from OCAS enrolment reports, the annual applicant survey, and from the Ministry of Training, Colleges and Universities' student satisfaction survey, an annual in-class survey of all funded students beyond the first semester.
- Apprentices: Ontario Ministry of Training, Colleges and Universities.
- Continuing education students: Continuing education surveys conducted by CCI Research Inc. on behalf of the colleges.
- Graduates and employers: The graduate and employer satisfaction/outcomes survey and the Ministry of Training, Colleges and Universities' employment profiles for college graduates six months after graduation.
