# Drop-in Community Workshop

An Overview

February 21 & 24, 2024

# Workshop Overview

Northcrest Developments hosted workshops with residents from the Ancaster community, on February 21 and 24 respectively, to discuss the development proposal resubmitted to the City in July 2023, including specific areas of interest such as building heights, local street connections, parks and more.

Community input is essential to our process. These workshops, functioning as essential touchpoints, were designed to address participant inquiries, delving into the intricacies of the City of Toronto's development processes and district planning.

We thank all those who attended and participated in these workshops, which yielded valuable insights that will inform and shape our plans for The Hangar District—ensuring that this project is not only informed by but actively shaped *with* the neighbouring community it will also one day serve.

# Project Materials

Workshop participants referenced print outs from the July 2023 submission and copies of the material presented at the December 2023 Townhall, to allow for in-depth discussion on areas of interest to residents.

Copies of these documents can be found here:
