Re: BLACK HISTORY MONTH 2024-25

Dear Parents,

In honour of Black History Month, East Hill School has planned once again this school year many exciting and engaging activities during the month of February for our students to learn about both historical and current Black History topics such as Creative Arts, Fashion, Dance, Sports, Science, Drama, Music, Authors, and Poets. This year, the theme we adopted is: “The influence of the Black community from past to present”. We hope this will provide a great opportunity to highlight the contributions of several characters and personalities from the black community.

In keeping with this year’s theme, all our students will attend at school another edition of our *Black History Month Fair*. This year, our fair will include snacks from Caribbean gastronomy, music, and the display of the students’ projects on different Black History topics.

Our students will also have the opportunity to attend different presentations promoting diversity, inclusivity, and equity.

We are looking forward to a wonderful, inspirational, and inspiring Black History Month celebration!

Kind Regards,

East Hill Administration
