

Kindness Quotes.

"You may make mistakes, but you will always be forgiven." -Maya Harris

This quote was originally written by me.

I really like my quote because not only is it true, but it's reassuring, And it's pretty much just telling you that you will always be Welcome even if you made a mistake.

It doesn't matter if you made a mistake large, or small. Someone will always forgive you, It doesn't matter who it is, all that matters is you are forgiven and a weight on your chest was lifted.

I also like this quote because it can relate to religions as well, Like God's forgiveness, or other Gods too.

This quote really connects to me, because not only did I just think of it,
Over time, I found out that it was true.
You see not only does my mother always forgive me, but others as well.
Because if you only look at the negative, you'll never see the bright
side.
