

Night at the Museum

Are you ready for a scavenger hunt at the Smithsonian? This week you will be looking at an exhibit on the Chilean mine rescue. Make sure to zoom into the writing on the wall.

To start your visit, [click here](#). Then, read [this article](#) by Richard Pallardy.

Let's Go On A Virtual Fieldtrip!

This week, take some time to go on a virtual field trip to explore awesome places around the world from the comfort of your own home! This page gives you some examples with fun related activities, but there are many other virtual field trips available online. [Click here](#) for more options.

National Parks Adventure

Have you ever wondered...

What it looks like inside the crevasse of a glacier or inside the lava tube of a volcano? Or perhaps you were wondering about life in caves or sea life in a coral reef. Take some time to get outside virtually and be mesmerized by the beauty Mother Nature has created here on planet Earth. Explore 5 spectacular National Parks in a front row seat on an interactive ranger-guided tour.

Under the Sea

Check out these live web cams from the Monterey Bay Aquarium:

[Coral Reef](#)

[Open Sea](#)

[Jelly Fish](#)

Watching these sea animals while listening to the soothing music has wonderful calming effects. Try out these guided meditation videos with the [Open Sea](#) and [Jelly Fish](#) aquariums for a relaxing activity.

Egyptian Pyramids

Explore an ancient Egyptian pyramid [using a robot!](#)

Did you see any Egyptian drawings on the walls? These are called [hieroglyphics](#) ("hi - row - GLIFF - ics") and they are the Egyptian alphabet. 

[Here is more information](#) about hieroglyphics, including a translation into English sounds. Notice that there aren't hieroglyphics for ALL English sounds.

Can you write any words using this Egyptian alphabet?
Can you write your name?
