Mobility Aids

The background image is a monochromatic blue-tinted photograph. It shows a person's hands gripping the top bar of a walker. Another person's hand is visible, resting on the person's forearm to provide support. The scene is softly lit, emphasizing the texture of the clothing and the grip on the walker.

Canes and Cane Accessories

McKesson canes provide a convenient, affordable and lightweight mobility solution for those who experience pain, weakness or mild balance issues that make walking difficult. McKesson offers a selection of canes in a variety of colors, heights, materials, handle types and base types. Quad canes are ideal for users who require more stability and support. Unlike most walkers, standard-style canes and small-base quad canes generally fit on an average depth stair. McKesson also offers convenient folding canes for ease of portability and storage. McKesson canes deliver ease of use, convenient height adjustability and reliable performance.

Crutches and Crutches Accessories

McKesson's push-button crutches feature durable construction; comfortable, adjustable padded hand grips; and contoured underarm pads. The convenient and intuitive push-button design allows you to quickly adjust the height in one-inch increments. Non-skid tips provide excellent traction and stable performance. McKesson crutches are available in child, youth, adult and tall sizes.

Reachers

For users with compromised mobility, stability or arthritic pain, reachers can make a significant impact to improve quality of life and restore independence. By using a McKesson reacher, users don't have to rely on others to do simple tasks and can avoid worries associated with risks such as losing balance or using a step stool. Choose McKesson hand-held reachers for their versatility, light weight and durability. Ideal for grabbing dropped items and reaching items on high shelves, McKesson reachers enable users to minimize bending and stretching movements.

Rollators

McKesson rollators are ideal when arm strength is limited. Rollators, unlike standard walkers, do not require users to lift the unit with each step and they also include brakes to maintain control. With convenient storage and seating, our rollators allow users to transport personal items without requiring the use of hands and provide the ability for users to sit or rest. Choose McKesson's rollators as a mobility solution for the enhanced maneuverability across various terrains that will keep users moving smoothly and safely.

Walkers and Walker Accessories

Decreased mobility doesn't have to mean the loss of independence. McKesson walkers are a convenient and affordable mobility solution for users who have difficulty with balance or standing, suffer arthritic pain, or experience fatigue or shortness of breath from walking. Walkers are commonly preferred for stability and balance. McKesson walkers feature lightweight construction and a push-button release mechanism for easy folding and storage. Choose McKesson walkers for durability, convenience and comfort.

Wheelchairs

McKesson wheelchairs are ideal for patients who have difficulty walking due to illness, injury or disability. McKesson offers a comprehensive selection of wheelchairs that promote patient independence, improve mobility and enhance quality of life. With durable construction, easy-to-adjust footrests, and lightweight, easy-to-clean upholstery, McKesson wheelchairs provide long-lasting performance and comfort. Dual axle options provide easy transitions to hemi-level seat height to allow users to propel the wheelchair with their feet. Choose a McKesson wheelchair based on arm style, footrest preferences, reclining options, size and weight capacity.

Bath Aids

Bath/Transfer Benches and Shower Chairs

With hard surface areas that get wet and slippery, the bathroom is the most dangerous room in the house for slips and falls. Bathrooms are the most used and most hazardous areas of a home. According to the Centers for Disease Control and Prevention, nearly 70% of nonfatal bathroom injuries for patients aged 15 and older occurred around the bathtub or shower. McKesson bath and transfer benches feature non-skid tips, durable construction and convenient drainage holes. These products fit most standard tubs and are designed to help reduce the risk of slipping or falling while bathing. McKesson's bath transfer benches fit over the edge of the bathtub, enabling a person with limited mobility to safely enter the tub while remaining seated. Models are available with additional features such as removable or reversible backs and handles or adjustable heights to accommodate users' individual needs and preferences.

Bath Safety Accessories

McKesson bath safety products can enable people with limited mobility and balance to live in their homes independently by helping to prevent falls. Caregivers rely on McKesson bath safety products for optimum comfort and quality. McKesson’s handheld showerheads are easy to install and offer a convenient and affordable way to enrich your daily shower experience. Our shower hoses provide the freedom and flexibility to shower while seated on a bath bench or stool.

Grab Bars and Tub Safety Rails

McKesson grab bars and safety rails are an essential bath safety solution for users of all ages. The Centers for Disease Control and Prevention strongly advises adding grab bars inside and outside showers and tubs and next to toilets — not only to help individuals with limited mobility and issues with balance or standing, but also as a proactive method of injury prevention. Choose McKesson’s grab bars for a safer bathroom environment. Installing grab bars or safety rails is an affordable safety measure to help prevent accidents, provide support, improve stability, and enhance a patient’s independence and confidence.

Toilet Safety Products

According to the Centers for Disease Control and Prevention, over 14% of bathroom-related injuries in older adults occur “when standing up from, sitting down on, or using the toilet.” The added height of the seat and the durable arm rails allow users to safely sit and stand back up from the toilet. McKesson’s raised toilet seat enables users to avoid falls and achieve greater independence and confidence. The locking device is engineered to fit securely on almost any toilet.
