

Dr. Aziz Moukled

I am interested in serving on RCDSO Council because I believe strongly in protecting the public and maintaining trust in the profession's regulatory system. I understand that Council members have a responsibility to make decisions in the public interest, and I would take that responsibility seriously. Throughout my career, I have had the opportunity to experience dentistry from many different perspectives as a patient, volunteer, student, dentist, colleague, and teacher. Each of these roles has helped shape the way I listen, communicate, and understand the needs and concerns of others. They have also reinforced the importance of providing safe, ethical, respectful, and equitable care. Working with people from different backgrounds and experiences has taught me the value of diversity, inclusion, and mutual respect. I believe strong decisions are made when people feel comfortable sharing their perspectives and when those perspectives are genuinely considered. If given the opportunity to serve on Council, I would bring integrity, professionalism, collaboration, and a willingness to continue learning. Above all, I would remain focused on the responsibility of Council to protect the public and maintain confidence in dental regulation in Ontario.
